Central Dover is comprised of a number of distinct areas clustered around the historic Loockerman Street commercial corridor. Adopted in 2014, Restoring Central Dover is a comprehensive neighborhood plan in motion. The initiative is led by NCALL and a Steering Committee comprised of community and city representatives.

The plan represents our community’s vision for restoring the vitality of Central Dover. It offers a multitude of strategies for a Strong Community, Positive Development, and an Integrated Public Realm and Infrastructure.

See the plan at www.ncall.org.

Central Dover residents want safer streets, better housing, access to parks, youth services, and more.

Towards achieving our vision a range of strategies are organized in three goal areas:

1. A Strong Community
2. Positive Development
3. An Integrated Public Realm and Infrastructure

A STRONG COMMUNITY
A strong community focuses on strengthening community cohesion through the cultivation of neighborhood groups, improving public safety, engaging youth in the community, and expanding adult and family services.

POSITIVE DEVELOPMENT
Positive development includes strengthening existing housing, supporting new development, reinvesting in commercial corridors, and ensuring equitable economic development.

AN INTEGRATED PUBLIC REALM AND INFRASTRUCTURE
An integrated public realm and infrastructure consists of improving transportation, enhancing open spaces, and expanding green infrastructure.

- Join an implementation work group:
  - Resident Engagement
  - Youth and Adult Services
  - Economic Development
  - Housing
  - Transportation, Green Space, and Infrastructure
  - Safety

- Participate in neighborhood watch groups
- Join civic associations
- Volunteer with community events
- Attend leadership meetings
- Become a homeowner
